## Britain's Church Bells Ring Out To Herald Birth Of Heir To Throne

Son Is Born To Princess Elizabeth On Sunday Afternoon

Crowds Gather Round Buckingham Palace And Cheer Heir's Arrival

By CHARLES A. SMITH  
(I. N. S. Staff Correspondent)

LONDON, Nov. 15.—The resounding bells of London's churches and those of the entire commonwealth rang loud and long today to herald the birth of a son and heir to the British throne.

An official bulletin from Buckingham Palace said that Princess Elizabeth, the happy mother and her infant prince, whom most London newspapers believe will be christened George, are in a satisfactory condition.

The statement said:

"Princess Elizabeth had some sleep during the night. Her condition and that of the infant prince are satisfactory."

It was signed by Gynecologist Sir William Gilliat and Palace Physician Sir John Weir, who left Buckingham during the morning after a nightlong vigil following the birth of a child described by a close intimate of the royal family as "a really splendid boy."

Seven Pounds Six Ounces

A question the whole world has been asking—how much did the baby weigh?—was answered at 12:00 p. m. (8:20 a. m. EST).

An official statement said that at the moment of birth, the child tipped the scales at 7 pounds, six ounces.

As British warships at sea and in ports throughout the world fired 41-gun salutes to welcome the baby prince there was an attempt to return to normal routine at Buckingham Palace.

It was made known that neither Prince Philip, Duke of Edinburgh, proud father of the baby, nor Queen Elizabeth would make an appearance on the balcony during the day.

But in spite of this, a constantly

## GOP Has Corner On Hotel Rooms In Washington

Democrats Seeking Reservations For Inauguration Find Few Available

WASHINGTON, Nov. 15.—(INS)—A horde of frustrated Democrats are wishing today that President Truman's bandwagon had a trailer attachment.

They have discovered in the past week-and-a-half that the Republicans have something of a corner on capital hotel reservations for inauguration day.

So if the Democrats get as much as a sidewalk superintendent's view of the gala inauguration proceedings, it will be by courtesy of the GOP.

Hotel men agree that there just won't be a nook or cranny to tuck a Democrat into on inauguration day unless a few thousand Republicans decide to cancel reservations for January 20th.

And the Republicans seem to be in no hurry to relinquish their rooms.

Whistling In Graveyard

Although some Democrats did hopefully reserve rooms for the occasion, most of them seemed to have felt that it would be like whistling in a graveyard.

That, of course, was before November 2 when the voters turned the Democratic wake into a weddin.

The Republicans, on the other hand, made arrangements well in advance to be on hand for what looked like a surefire GOP inauguration day jamboree.

Individual hotel managers now report that their inauguration day reservations are a solid sellout. The majority of these reservations, they say, were made long before election day.

Crowd Cheers News Of Birth Of Heir To British Throne

—Acme Telephoto  
Throngs cheer wildly outside Buckingham Palace after announcement that a son was born to Princess Elizabeth, on Sunday afternoon.

## Princess' New Son To Become Britain's King

By ROBERT G. NIXON

(I. N. S. Staff Correspondent)

KEY WEST, Fla., Nov. 15.—President Truman's three-man political strategy board is scheduled to leave the vacation White House today after concluding talks with the Child Executive.

Vice President-Elect Alben W. Barkley, Sen. J. Howard McGrath, Democratic National committee chairman, and Leslie Biffle, secretary of the Senate Policy committee, will leave for Miami and then return to Washington by Wednesday.

He comes second in the line of succession to the throne, directly following his mother, the heiress presumptive.

Succession to the British crown is hereditary, with sons and their descendants taking precedence over daughters, but direct descendants of each reigning sovereign succeeding in preference to collateral relatives.

Thus Princess Elizabeth, as the king's elder daughter, succeeds in preference to her father's younger brothers and their descendants.

Will Automatically Get Throne

But the new prince, as a first-born son, will in his turn automatically succeed to the throne.

His birth places Princess Margaret Rose, the king's younger daughter and the new prince's aunt, in third place.

Previously she had immediately followed Elizabeth.

The royal infant, under a decree issued recently by the king, bore from the moment of birth the rank and style of prince and royal highness.

During his grandfather's lifetime, unless a special title means while is conferred on him, he will be known as a Prince of Edinburgh after his parents' royal dukedom, with his first name following the title of Prince.

Become Duke Of Cornwall

Upon his mother's assumption of the throne he will, as oldest

W. A. HOFFMASTER MAKES ADDRESS

Tribute was paid to the memory of these young men of the Croton district, who made the supreme sacrifice in World War Two, when a tablet containing their names was unveiled with appropriate exercises at the Croton Honor Roll, in the park at the corner of Croton avenue and Cascade street, Sunday afternoon.

Police Chief W. H. Brown said that the bodies of the famed sculptor and Mrs. Lazzari were found eight hours after they had been slain. The discovery was made by a neighbor who had been invited for Sunday dinner.

Lazzari had been shot once in the stomach. His wife had been shot twice, also through the stomach.

Authoritative American sources said that Marshall is expected to deliver the U. S. reply "in some days."

British quarters said that similar individual replies also probably will be made on the "foreign minister level" by Great Britain and France.

Against Joint Answer

These quarters indicated that the three western powers had decided against a joint answer.

The U. S. sources said that the western foreign ministers will meet tomorrow, at British request, to confer on the attempt by the two top U. N. officials to hasten a settlement of the Berlin crisis.

British U. N. Delegate Sir Alexander Cadogan had hoped to arrange such a meeting for today, but it was explained that he had not been able to get in touch with Secretary Marshall and French Foreign Minister Schuman.

Delivery of the western reply by the foreign ministers would avoid involving President Truman, British Prime Minister Attlee and French Premier Queuille in the matter directly.

Loading and unloading operations ceased immediately on the liners Mauretania, Oregon, British and Veendam.

Hundreds of longshoremen stood around Halifax piers and no cargo is being moved.

Before the men walked out, Halifax had been serving as the main alternate port for trans-Atlantic passengers headed to and from New York.

## Speculation On Name To Be Given Princess' Son

LONDON, Nov. 15.—(INS)—The names to be given Princess Elizabeth's new son are Britain's major subject of speculation today.

The baby prince, in accordance with royal custom, will receive at least four names, and some court circles believe the first of these will be Andrew.

They pointed out that Andrew is the name not only of Prince Philip's late father, Prince Andrew of Greece, but also of St. Andrew the patron saint of Scotland.

The royal family, and Philip and

Elizabeth in particular, have intimate associations with England's northern neighbor.

The young royal couple draw the title of their dukedom from Edinburgh, Scotland's capital city.

Elizabeth herself is partly Scottish.

Her maternal grandfather, Queen Elizabeth's father, is Earl of Strathearn, head of the ancient Scottish house of Bowes-Lyon.

Other possibilities, at least somewhere in the list of the baby's

## Hear Arguments On Proposal At City Hall Session

Meeting Continued This Afternoon—City Employees Ask New Raise

## FINAL ACTION ON TAX LIKELY TODAY (BULLETIN)

At the meeting of city council this afternoon, the measure imposing a one per cent wage tax in New Castle, was passed unanimously by action of council. The motion for passage was made by Mayor John F. Haven, seconded by A. A. Hoyland, and given approval of all five members of the city council.

Council met this morning in city hall, and following two hours discussion of the proposed ordinance, calling for a tax levy and setting a tax rate of one percent on wages, income and other compensation, recessed until 1:30 p. m. at which session vote to adopt, or reject the bill is expected.

Council President, Mayor John F. Haven, called for the recess because city employees, present at the meeting, requested wage boosts, ranging from 15 to 20 percent. He said that, in arranging a tentative budget no provision for an increase had been made, hence the recess.

Speak On Proposal Those who spoke against adoption of the wage measure were:

Ralph Audino, representing the Trades and Labor assembly; Aram Armond, International association of Machinists and Attorney Joseph Solomon.

Those who spoke in favor of the wage measure were:

Attorney J. Clyde Gilligan, William E. Watkins, representative of the New Castle Realty Board; James Lawton, Adams street, who said he is a union man, lives here, works in Sharon and pays a wage tax where he works; Secretary Grover Syling, Fraternal Order of Police and John Oberleitner, representing the paid firemen.

## Request Wage Basis

J. L. Strobel, Public Workers of America, requested a 20 per cent raise for street workers but refused to enter into the wage tax controversy. President George Sigler, Fraternal Order of Police, said he concurred in the street workers' request, but like Oberleitner of the firemen, asked for 15 per cent raise effective in January.

Council was called to order by

## Chinese Forces Are Sustaining Heavy Losses

Battle On Suchow Front Continues—Massive Red Attack Made

By SEYMOUR TOPPING  
(I. N. S. Staff Correspondent)

NANKING, Nov. 15.—Chinese government troops were reported steadily weakening today under a massive communist onslaught on all sides of Suchow, guarding the main approaches to Nanking.

Despite this darkening picture, an official Nanking spokesman characterized as "absolutely untrue" a communist claim that top nationalist leaders are conniving to force the "abdication" of President Chiang Kai-shek.

Authoritative sources revealed meanwhile that the United States plans the gradual withdrawal of some 1,250 officers and men of its advisory group from China. This would leave a nucleus of only about 50 American army, navy and air force officers of the group in China.

To Evacuate U. S. Men Generalissimo Chiang, it was learned, has been directly informed of the American decision to evacuate the bulk of the military advisory personnel because of the swiftly deteriorating nationalist military position in central China.

This morning a U. S. destroyer sailed from Nanking's Yangtze river port for Shanghai with approximately 250 evacuees aboard. More than half the evacuees were Americans.

Latest available information from the Suchow front stated that the government forces were sustaining increasingly grave losses in a mammoth struggle reportedly involving a million troops of both sides.

The spokesman, Information Director Hollington K.

## See Rejection Of Bunche's Demand

**Plan Is Angryly Denounced In Official Israeli Quarters**

(BULLETIN)

PARIS, Nov. 15.—(INS)—The government of Israel flatly rejected today a permanent peace plan for Palestine which would require Jewish withdrawal from 500 square miles of the southern Negev territory.

By BEN FELLER  
(U. S. Staff Correspondent)

TEL AVIV, Nov. 15.—Israeli rejection of U. S. acting mediator Ralph Bunche's demand that Jewish forces withdraw from the Negev was foreshadowed today by angry denunciation of the plan in official Israeli quarters.

The denunciation of the demand that Israel retire from a 500-square mile area of the Negev, taken from the Egyptians in recent fighting, was unofficial but unanimous among Israeli officials.

One of them described the proposal as "shameful".

Egyptian Prime Minister Muhammed Nakashy Pasha said in Cairo that his government will "comply with Bunche's request on the Negev."

Officials Angered

Israeli officials are angered particularly by the recollection that the Negev was assigned to them under the original U. N. partition scheme never has been repudiated.

A foreign office spokesman complained that the Israelis are required to withdraw but the Bunche plan "does not mention any similar Arab movement". He added:

"Apparently the whole Negev will be a vacuum administered by UN observers with the astonishing exception of Beersheba."

son of the sovereign and the heir apparent, automatically become Duke of Cornwall.

To this will be joined a long series of other titles, including that of Duke of Rothesay, traditionally born by the oldest sons of the ancient Kings of Scotland.

But he will not automatically become Prince of Wales.

This, the traditional title of the sovereign's oldest son and heir, expires each time its holder succeeds to the throne, and must be created anew.

But there is no room whatever for doubt that Elizabeth, when she becomes queen, will follow the custom of many centuries and confer on her first-born the rank and style traditionally his.

### "EVIDENCE" TOPIC

#### AT SORORIS MEET

Gathering Friday afternoon in the lounge room of the Y. W. C. A., Sororis club held an enjoyable meeting for which Mrs. John R. Bigler was hostess.

Naming "A Historical Place" was the answer to roll call. As historical places are so numerous, no answer was duplicated.

Mrs. John A. McGrath thrilled those present with her unusual discourse on "Circumstantial Evidence". It was based on two Court trials of people of whom she had personal knowledge and depicted vividly the terrible consequences resulting from acceptance of false evidence.

The parliamentary drill period was in charge of Mrs. Thomas A. Gilkey. She presented "Motions and Amendments" in such an interesting and instructive way that members gave their undivided attention to the subject.

The next meeting on November 26 will be featured by election of officers to serve for the ensuing five meetings. Mrs. Wyatt R. Campbell, 424 East Moody avenue will be the hostess.

The bride was attired in a blue street length dress with a corsage of tea roses. As her only attendant she chose Miss Lois Hilke, sister of the groom. Wallace E. Smith, brother of the bride, served the groom as best man.

The couple have dispensed with a wedding trip for the present and have taken up residence at the home of the bride's parents, North Lee avenue.

## In View Of News Of The World

By J. C. OESTREICHER, INS Foreign Director

**TWO GRAVE** western power charges against Soviet Russia occupied international attention and put something of a brake on the optimism that had been mounting in Europe during the last two weeks.

One allegation is that the Kremlin has embarked upon a "dangerous" peace offensive designed to weaken United States determination with regard to re-arming Western Europe for the preservation of democracy.

The other is that Premier Marshal Stalin has decreed a complete switch-back in Soviet foreign policy and again has set the wheels in motion for world revolution.

### Charges Made

The first charge was made by Secretary of State Marshall in a vigorous restatement of American foreign policy in its crusade against communism in Europe.

The second was voiced by United Nations Delegate Frederick Osborn, whose views are detached and non-political.

With regard to the first, "peace offensives" are nothing new to Europe. It was a favorite tactic of Adolf Hitler to carry an olive branch in one hand and a Luger pistol in the other.

There is no question that Hitler achieved a very great deal in the initial phases of his inglorious career by hoodwinking his enemies-to-be, which still are paying dearly for their lack of foresight.

### Difficult To Prove

This sort of charge is admittedly difficult to prove. It took a world war to convince the democracies that Hitler never had any intention of cooperating with the other nations of the world except on the basis of receiving all he wanted.

It is clear that United States foreign policy is carefully designed to prevent a repetition on the part of Joseph Stalin. This policy is based upon this thesis:

If Stalin feels he must have a war to maintain his dominance, the U.S. and Europe will be fully prepared to meet it.

If he is sincere in claiming that

## The Parent Problem

By Garry C. Myers, Ph. D.

### EATING PROBLEMS EASILY SOLVED

The more letters I read from parents about eating problems in the child and the more often I observe a child when he doesn't eat anything even food offered him, the more I am convinced that a very simple matter is likely to be at the root of all the trouble.

The child is served far too large helpings. Indeed, he at two, three or five may be served large helpings of several foods all together. When the same child was only six or eight months old he probably had a particular food pushed into him beyond the time when he enjoyed it, and often so fast he could not masticate and swallow it comfortably.

If I could get over to young mothers this simple rule, "Only one food served at a time and very, very, very small helpings," they would rarely face eating problems with the child. Well, they might try one food at a time, for a while at least, and suppose the helping is small. But "small" may mean to them a teaspoonful, even a tablespoonful. I want it to mean not more than an eighth of a teaspoonful, merely big enough to be visible.

### Two-Year-Old

Suppose the child is two years old and you give him a tablespoonful of mashed carrots he doesn't like and you end his meal if he does not clean up these carrots. He may hold out and have no more food till the next meal, if you hold out. The chances are you won't hold out. Yet how much easier it had been for him and you if the amount had been no bigger than a lime bean. In those the child were older the small helping would all the more certainly and quickly lead to the desired results.

(My bulletin, "Eating Problems: Their Prevention and Correction," may be had in a stamped envelope by writing me at 235 East 45th street, New York, N.Y.)

Suppose here are two or more other foods you wish him to have at this meal. As soon as he has finished the very small portion of the first, give him a very small portion of the next, and so on. Better not choose more than one or two disliked foods at any meal. Soon the child may be begging for more of the food of which you have given him so little. Be sure the child gets no seconds till he has run the gamut, and that a second helping is no larger than the first.

### Large Second Helping

Even to give the child three, five or seven, who usually eats well, too large a second helping is bad. And if the child is allowed to serve himself a second see that he takes only a small portion. Always when he has more of any food than he cares to finish you are tempted to command him to finish it, which would be bad.

There is many a child over six or ten finicky over food. Expect him to eat of every food served the family. If either Father or Mother serves, the child should be asked to say how much of any food, just so the portion is visible. In some cases the child should be allowed to serve himself of certain foods he does not like very well.

What you are driving at is to cultivate the habit of eating what is served and all of it. Be sure, therefore, that the serving is as small as the child desires it to be. Our own children, when between the ages of 6 and 12, wished to avoid new and unfamiliar foods served the family. They were always required to eat a portion of it, small as they wished. Often such a food soon became a favorite. The simple secret is very, very, small helpings.

To my knowledge, these children now grown and with young children of their own (a total of 10) have no food dislikes.

They have now developed small, apartment-sized turkeys for your Thanksgiving. But the price is higher than that of the big economy size a few years ago.

## "Said The Governor"

## Looking At Life

By Erich Brandeis

There isn't a day in the week somebody won't tell you about what's wrong with the children of today.

Everybody is picking on the poor kids.

So I am glad, at last, a survey has been made to find out what's wrong with parents.

Not being an expert, I have not had the courage to tell my readers that I think there are a whole lot of things wrong with parents.

Children go to school to learn how to cope with life.

But few parents go to any kind of school to find out how to cope with parenthood.

Well, enough of philosophizing. Let's get down to facts.

At Dobbins Ferry, some few miles out of New York City, there is a fine institution called Children's Village. It is a training center for underprivileged youths who have come into conflict with their own communities through broken homes or inadequate guidance.

The pol was taken among 276 of them, ranging in age from 10 to 16 years, to determine which qualities in parents they considered most desirable and which most undesirable.

The result was surprising and also, in my opinion, well worth memorizing.

Because these kids are probably in a much better position to decide the right and wrong in parents than the children of happy homes, children too busy with normal life to think about rights or wrongs.

Truthfulness was the quality most desirable in parents.

Too many parents fool their children with lies or evasions when asked questions. Parents may think that the children are "too young to know". But when a child is old enough to ask, he or she is old enough to receive a truthful answer.

After truthfulness came honesty. Then justice, courtesy and a quiet voice. Affection, strange to say, was only sixth in the estimation of the youngsters as a parental characteristic.

Other desirable virtues were: consideration for others, calmness, love of adventure, a sense of humor. Firmness and control of temper were also given as desirable virtues in parents.

Incidentally, 55 per cent of the children said that they disliked demonstrations of affection in public.

Smoking and drinking were the most severely criticized parental habits. Favoritism toward one child as against the others was also high on the list.

Lack of cleanliness was another shortcoming. Failure to give them any religious training and consciousness was apparently responsible for much unhappiness among the children. Many parents seemed to forget entirely to teach their offspring good manners. One boy wrote, "If you don't have good manners, people don't like you."

What do kids admire in parents? A happy home-life headed the list.

Parents should take time to talk to their children. Father and mother should show them how to do things.

The ideal mother? She was thus defined by an 11-year-old:

"She is good, she is lovely, she is sweet."

WASHINGTON, Nov. 15.—Do not be surprised if President Truman, fresh from his great, surprise election triumph, designates Senator Arthur H. Vandenberg (R) Mich., as secretary of state in his new cabinet.

That Secretary of State George C. Marshall wants to retire is no longer a secret. And the President's intimate's indicate that he desires to make the bi-partisan foreign policy an example for the

surplus of wheat. The original agreement was killed by a Republican-dominated Senate committee.

What the Democrats will do about the ticklish farm price support structure is a big question.

The party would scarcely dare make any change in the system for 1949 since many crops which will be harvested next year are already in the ground.

However, Democrats are not entirely satisfied with the sliding scale of supports the Republicans have set up to become operative in 1950.

Some of the President's inti-

mates think this can be sharply emphasized by the appointment of Vandenberg, the world statesman, lifelong Republican, to the No. 1 cabinet post.

Senator-elect Margaret Chase Smith, of Maine, defeated GOP presidential candidate Thomas E. Dewey to the job. Her suggestion was obviously a hopeless one.

However, Vandenberg, who will no longer be State foreign relations committee chairman because of Democratic control of Congress, is regarded as a "natural" for the job.

Of all Republicans, Mr. Tru-

man regards Vandenberg as the ablest. He worked with Vandenberg in the Senate. In the cam-paign just ended Vandenberg made one foreign policy speech in favor of Dewey. However, it was scholarly and surprisingly mild.

TRUMAN VICTORY TO BRING FARMERS BOOM?

The Democrats' return to power puts the party in a position where it has to make good on a sweeping farm aid program.

It is almost certain that the new administration will make another attempt to push through the international wheat agreement — this time with good chance of success.

The pack doubtless will have to be re-drafted but Agriculture de-

partment officials think an assured

ment guarantees—is a "must" in view of an anticipated mounting

## Union High Play Cast Announced

The Baby Sitter, Three-Act Comedy To Be Given Friday Evening In School Auditorium

There's a treat in store for every person who attends the junior-senior class play at Union High school Friday evening, November 19, at 8:15 o'clock in the school auditorium.

"The Baby Sitter," by Perry Clark is the three-act comedy selected and if rehearsals are indications and the gist of the plot a criterion, there is an evening of excellent entertainment awaiting those who plan to attend.

The fun begins when Bob breaks a date with his girl friend, Carrie, who is a baby-sitter, for another girl, Eunice. His parents have arranged this date, and the evening certainly gets complicated. Baby sitting, broken dates and unmanageable children make up the thread of play and for three acts the comedy is fast-paced and excellent, and leads to a surprise and happy ending.

Included in the cast are:

Bob, who breaks a date—Jack Peterson.

Mother, who makes him break a date—Lois Stratwell.

Carrie, who agrees with mother—Dan Leasure.

Junior, a holy terror—Bob Martin.

Jane, Bob's sister—Kay Anderson.

Helen, Bob's sister—Rita Hogan.

Carl, Bob's son and only—Nadine Bartlett.

Eunice, who tries to take Carrie's place—Joyce Hennings.

Carl's friend—Bill Pearce.

Lily, another holy terror—Gene List.

Midge, who raids the toolbox—Esther May Cox.

Tom, who helps her—Wilma Heckart.

Mrs. Gordon, Junior's mother—Josephine Proudford.

Mr. Gordon, Junior's father—Lewis Gordon.

The play is directed by Mrs. Helen King, who is in charge of dramatics at Union High school.

(Continued from Page Four)

in France is no recent development.

Marshall plan aid to France has kept in check the lawless elements who would take advantage of the troubled situation to achieve political ends. Any lessening of that aid or an inclination on the part of the United States to revert to isolationism would liberate the country and a Communist revolution would become almost inevitable.

There is no longer any doubt that the Kremlin does have the machinery or apparatus for worldwide disturbances.

**Enormous Power**

The enormous power of the proletariat and the flexibilities of the Soviet constitution so far as it affects the people as a whole combine to give Stalin and his close aides entire liberty of action.

As it is based on Marxian principles that ostensibly forbid profit and private ownership, this constitution virtually can legalize war on capitalism and all that it represents. Soviet leaders presumably could inspire their people to support an aggressive war just as Hitler did with the Germans.

The point that is important in a final analysis is the actual capacity of the Russians to fight a war against the civilized world.

Many students of international affairs think not. But western policy is functioning on a basis of taking no chances with unpredictables.

### Question Man As Suspect In Slaying Of Co-Ed

CANON CITY, Colo., Nov. 15.—(INS)—A 26-year-old Sacramento, Calif., man was held today as the

chief suspect in the rape-slaying of an 18-year-old Colorado university co-ed.

The man was identified by Police Chief Marvin Richards as Lonnie Lee Freaka. He was arrested after Canon City police noted his "belligerent attitude" when he was given a ticket for going through a stop sign. Freaka was released and later

picked up in a tavern "on a hunch" by authorities.

He will be questioned by Boulder authorities in connection with the slaying of Theresa Catherine Foster, the Colorado co-ed.

Meanwhile, police sought clues concerning the disappearance of two other young girls.

Still missing are Lillian De Bell, 18, a co-ed at Colorado State College of Education in Greeley, and

Mrs. Kay South, 17, a La Junta waitress. Miss De Bell disappeared two weeks ago, and Mrs. South has been missing since Friday morning.

Fear was expressed that the two cases may be linked with the Boulder murder.

Old ideas about the origin of eels were that they came from horsehair in the water, or from beetles.

## Large Crowd Goes To Cleveland Game

Special Train Chartered By Ath-  
letic Association Of United  
Engineering Plant

New Castle was well represented at the Browns-Forty Niner football game in Cleveland Sunday afternoon.

About 600 went over on the special train chartered by the Athletic Association of the United Engineering and Foundry Company, and it was estimated about 200 others drove.

The special train left New Castle a few minutes before nine o'clock and got back to New Castle before ten P. M. In between the hours was a day of pleasure for the crowd aboard. The weather was football perfect and the trip up and back

was enlivened by the "Open Hearth Sharps and Flats".

The OSH&amp;F is an eight man band of employees, all of them musicians. They not only entertained the crowd both ways but took their instruments to the football game. After four bands, including the Browns Majorettes had entertained the New Castle musicians went into action in the grandstand and stole the show. The ovation they got from sections 15-16-17-18 was a big one.

Not all aboard were United employees. The excursion was open to all and business and professional men and women of all walks of life took advantage of it.

There were no managers, metallurgists or mechanics aboard. Just football fans out to see a good game. A game that broke all records for attendance, nearly 83,000 being present.

The National Education association was organized in Philadelphia in 1857.

### Stop Runaway Plane With Shot

INDIANAPOLIS, Nov. 15.—(INS)

The sharp shooting-eye of an Indiana state trooper was credited today with preventing possibly high loss of life when an F-51 fighter plane with its fatally injured pilot spun out of control at Stout field near Indianapolis.

He is State Trooper Ray H. Thompson, who slowed the spinning aircraft by deflating one of its tires with a shotgun blast after repeated attempts to halt the runaway plane had failed.

The pilot, Capt. Philip E. Bonner, 28, of Indianapolis, died en route to hospital. He suffered a compound skull fracture when another plane crashed into his Mustang fighter on a group takeoff.

Seaman Pagley has been transferred to Great Lakes Naval Training Station for his first training in a three year naval career.

## STATE WILL DELAY SMOG DEATH REPORT

HARRISBURG, Nov. 15.—(INS)

State officials indicated today that the Commonwealth's report on

its investigation of the Donora "death smog" will be delayed several weeks.

Sources in the governor's office said that Gov. James H. Duff plans to withhold a preliminary report of state investigators until a full study of the case is completed by both State and Federal health agencies.

The smog was blamed for the death of 20 persons, mostly aged, several weeks ago.

## Seek To Uncover Motive In Slaying

District Attorney Reports Steelworker Confesses In Killing Of Allentown Waitress

ALLENTOWN, Pa., Nov. 15.—(INS)—District Attorney Kenneth H. Koch will confer today with the Lehigh coroner in an attempt to uncover the motive for the slaying of Mrs. Mary Perenti Avalon, 26-year-old Allentown waitress.

Koch said Rufus E. Keller, 28, an Allentown steelworker, has signed a confession of the slaying.

According to the confession, Koch added, Keller killed the woman with his "bare hands" because he had contracted a disease from her.

Lehigh County Coroner Dr. Alexander M. Peters, who performed the autopsy, reportedly did not find any indications of disease.

Mrs. Avalon's body was found in an alleyway near the cemetery Friday morning. Keller was captured while hitch-hiking near Harrisburg the following day.

## Strikers Reject

### Plea From Army

PHILADELPHIA, Nov. 15.—(INS)—Longshoremen in the port of Philadelphia were agreed "without dissent" today to reject an army request to permit shipments to move to servicemen overseas during the longshoremen's strike.

Some 2,000 members of the AFL International Longshoremen's union attended the closed meeting in Philadelphia.

Paul Baker, international vice president of the union, said that union leaders did not take any stand on the army petition, but left the matter entirely up to the rank and file.

The army had asked permission to send grain, foodstuffs and mail through the port of Philadelphia to servicemen overseas.

Thirty-two ships are currently tied up in Philadelphia by the strike.

## Have Leading Roles In High School Play

Nancy Hinish In Title Role  
With James Welker Playing Opposite

Nancy Hinish · James Welker

In the forthcoming senior high school's comedy, "Susie the Siren", by Anne Coulter Martens, the title role will be played by Nancy Lee Hinish. James Bernhardt Welker will play opposite her as Jim, the high school football hero who hears the voice of his siren and like Ulysses of old nearly comes to tragic grief. Through three acts of fast-moving comedy, Susie lures and Jim resists, yields and then resists again to save his pledged word of honor, thus escaping from the tragedy that threatens his team, his school and his own reputation.

Susie is a romantic high school girl who has a habit of identifying herself with any literary character she may be studying in class. The action of the play catches her in the phase of the siren. The material she finds at hand to work on is her ardent admirer, the captain of the football team. Her luring consists in trying to make him break a promise involving the high school honor, and a little matter of some red paint. Her sole motive is to show her power over the unlucky Jim.

Jim is the wholesome type of high school boy, enthusiastic about football, sensitive to the honor of his school, and as yet unprepared to detect and deal with the wiles of a siren. Fortunately his siren is really a lovely high school girl, play-acting within the play, and quite dismayed with the supposed results of her powers of luring. So Jim ends as the comedy as he began, a hero.

Nancy Hinish is the daughter of Mr. and Mrs. A. J. Hinish. James Welker is the son of Mr. and Mrs. James B. Welker.

### TENNIS TESTIMONIAL

MELBOURNE, (INS)—A testimonial praising the sportsmanship of the 1948 Australian Davis Cup team recently was shown to the Council of the Lawn Tennis Association of Australia. The testimonial was presented to Adrian Quist, Australian Davis Cup captain and manager, by the U. S. Lawn Tennis Association after America had won the cup. Chairman, Mr. Henry Pitt, said the testimonial was a fitting American answer to Australian press criticism of the Davis Cup team. No previous Davis Cup manager had received such a testimonial.

Open Them Wednesday

Judge John G. Lamoree has ordered the ballots to be recounted on Wednesday morning and has also ordered the election boards of all seven precincts in for a hearing before the recounting takes place.

Deputy Sheriff Allan Thomas first noticed the second seal on the boxes of the sixth and eighth precinct boxes. He brought them to Prothonotary John A. Edgar's office and Judge Lamoree and District Attorney Leroy K. Donaldson were called in to see the boxes.

Judge Lamoree ordered the boxes to be impounded with the rest and said the election boards would be questioned as to the condition of the boxes when they were turned over. Since the election the boxes of all ninety nine precincts have been locked in a room used for the official recount. It was the opinion of several court house attaches that the second seal had been placed upon each of the two boxes, by the election boards after the original seal had been broken in an attempt to lock it.

The original seal is a metal tape which fits into a metallic ball at the end of it. The substitute seals are wire, with a lead tag at the end.

Will Try Raising Wheat In Africa

NEW YORK, Nov. 15.—(INS)—The largest grower of wheat in the United States leaves today for North Africa to try to turn that arid land into the great wheat-producing area it was in the time of the Caesars.

Thomas D. Campbell of Hardin, Mont., who farms almost 100,000 acres in Montana and is credited with inventing mechanized, belt-line farming during World War I, dreamed up the project in 1943 when he was in Africa with the army.

Campbell, who in 1929 helped the Russians set up their first five-year farm plan, is undertaking the exciting project as part of the Marshall plan.

Organization Is Invited To Make U. S. Headquarters

WASHINGTON, Nov. 15.—(INS)—President Truman today invited the United Nations Food and Agriculture organization to make its permanent headquarters in the United States.

The president, in a message read to the fourth annual FAO Conference by Agriculture Secretary Brannan, expressed hope that the organization "will remain in the United States."

Location of a permanent headquarters is to be discussed by the several hundred delegates and observers attending the conference. The issue remains to be decided down to a choice between Washington, Rome and Copenhagen.

Supreme Court Refuses To Rule

(BULLETIN)

WASHINGTON, Nov. 15.—(INS)—The supreme court refused today to rule at this time on the government's right to block nationwide railroad strikes by the use of court injunctions.

The high court rejected an appeal by three rail brotherhoods asking that the injunction used to prevent the strike they scheduled for last May 11 be declared illegal.

The unions will have another opportunity to appeal the issue after the U.S. Court of Appeals rules on it. They have sought to by-pass the appeal court.

Christmas Seal Sale Is Opened

HARRISBURG, Nov. 15.—(INS)—The 1948 Christmas Seal sale by the Pennsylvania Tuberculosis Society was launched with the appointment of Col. Henry W. Shoemaker, state director of historical importance, as state chairman of the annual fund-raising campaign.

Accepting the appointment, he said that the threat of tuberculosis "has been greatly lessened" by cooperative efforts of the state and county tuberculosis societies, the state health department and the medical profession.

## Bunche Calls On U.N. For Decisive Palestine Action

Thirty-Five From Lawrence Caravan Make Pilgrimage To Zorah Temple

By IRVING LEVINE  
(I. N. R. Staff Correspondent)

PARIS, Nov. 15.—Acting United Nations Mediator Ralph J. Bunche called on the Security Council today to replace the "precarious" Palestine truce with decisive action to obtain permanent peace.

He demanded that the council throw the full weight of its authority behind his orders that Israel retreat from 500 square miles of Negev area territory. Israel is reported ready to reject the demand.

Bunche told the council that the Arabs have failed to achieve their objectives in the Holy Land fighting while the state of Israel "is a most pleasant week end as guests of the Terre Haute Shriners.

Ill. Potentate Max Johnson, who was a guest at the ceremonial here recently, left no stones unturned to show the local shriners a wonderful time, the local Shriners report.

Meanwhile, the 58-nation political committee moved to discuss the plan of the late mediator, Count Folke Bernadotte, after turning over half its work to a special committee.

The political committee rejected an Egyptian and Lebanese motion to shelve the Bernadotte plan, which calls for the transfer of the Negev from Israel to Trans-Jordan.

In another debate the committee also rejected a Soviet and Czech demand that a representative of the satellite government of North Korea be invited to participate in talks on the Korean problem.

The Des Moines will carry 1,100 officers and men.

Police In Battle With Escaped Tiger

—Acme Telephoto

A four hour battle raged at the Spot Pond zoo, Stoneham, Mass., between the police and a wild tiger. The tiger jumped free of his cage while the care-taker was trying to feed him, clawing one man's arm and throwing the Sunday crowd into terror. Picture shows dead tiger on building floor after the police Sgt. (above) shot him when all efforts to trap the animal with a fire hose failed.

## Francis Named New President

Heads E. And A. Division  
Veterans Association Of  
Pennsylvania Railroad

### OVER HUNDRED AT ANNUAL REUNION

W. B. Francis will head the Pennsylvania E. & A. division veterans for the coming year.

At the twenty-sixth annual reunion banquet held Saturday, November 13, Mr. Francis was elevated from the first vice presidency to the presidency.

With him were elected the following officers: C. E. Armstrong, first vice president; N. R. Perota, second vice president; F. S. Patterson, third vice president; P. L. Salmon, fourth vice president; and W. C. McGraw, fifth vice president. Floyd D. Perrine was named treasurer and C. B. Armstrong secretary, replacing Edward M. Fisher who retired after serving since 1936.

Report 100 Present

Present at the reunion banquet were 100 veterans of the Pennsylvania railroad, Erie & Ashtabula division. Many of them, perhaps the majority of them, were men who had taken their pension and are now enjoying a leisurely life. The vets started arriving early in the day. By noon they were present from all parts of the division. At 12:30 they sat down to a turkey dinner in The Castleton hotel.

President C. W. Fleming asked Morgan Jones to direct the singing of "America" in which the vets joined. Following the service of the dinner Mr. Fleming spoke briefly and introduced Edward M. Fisher. Mr. Fisher announced that he intended to take his retirement next year and felt it best to step out of the job as secretary of the vets. He then introduced William A. Francis as the toastmaster.

Toastmaster in Form  
Mr. Francis was in form for his duties and handled them well. A little humor, a little reminiscing and a little whimsy, all added up to a lot of fun. Mr. Francis introduced Howell E. Williams as the entertainer of the evening. Mr. Williams is a great digitizer, which in back room English is a magician. Mr. Williams entertained with his magic and proved the old adage, "the quickness of the hand deceives the eye".

Honoring the men who died during the year a memorial service was held. Forty veterans died since last year's reunion. As each one's name was called a bell was tolled and a rose placed in the memorial frame.

The balance of the afternoon was spent in old fashioned chitchat, digging out incidents of many years ago and enjoying the fellowship of the day.

The "barking frog" of Texas has a call that resembles the barking of a dog.

## A.F.L. Expects Repeal Of Taft-Hartley Law

Services Notice On President That Federation Expects Repeal Action

CINCINNATI, O., Nov. 15.—(INS)—The American Federation of Labor served notice on President Truman today that it expects him to ask Congress for complete repeal of the Taft-Hartley act.

As the AFL opened its 67th convention in Cincinnati, its president, William Green, said following a three-hour pre-convention session of the federation's 15-member executive council:

"That was the issue in the recent campaign—not to amend, but to repeal the Taft-Hartley act—period."

"It was the unanimous conviction of the council that we could interpret the attitude of the presi-

dent based on his speeches during the campaign and his statements since the election, that he favored repeal.

"We believe we are justified in recommending the president to recommend repeal in his opening address to Congress."

Green was to keynote the opening session, attended by some 700 delegates and 2,000 other representatives of the federation's 2,000 unions.

NEW LEXINGTON, O., Nov. 15.—(INS)—Four prisoners escaped from the Perry county jail at New Lexington today because it was the first day of the hunting season in Ohio.

It all came about when Sheriff Clair Butts went out in search of the elusive pheasant and fast-sprinting rabbit. His two deputies were not in the jail house either and Hugh Dobbins, 39-year-old trustee, had the run of the place.

Dobbins secured the jail keys and opened the cells which held Robert Romine, 21; William Goodfellow, 19, and Clyde Kelly, 26.

They helped themselves to at least two shotguns and took a truck

outside the jail. The state highway patrol immediately took up the search for the escapees.

Mrs. Butts, wife of the sheriff, said that her husband and the two deputies were hunting but other reports were that the two deputies were in the courthouse next door at the time of the break.

Kelly was being held on an armed robbery indictment and had previously made an escape attempt with the help of hacksaw blades

hidden in his cowboy boots before his arrest.

At that time, Sheriff Butts caught Kelly just outside the jail.

## Wheat Agreement Will Be Sought

American Delegates Will Enter Food Conference Seeking Wheat Agreement

WASHINGTON, Nov. 15.—(INS)—American delegates will enter the world food and agriculture organization today determined to sell the 57 FAO nations on writing a new wheat agreement.

Agriculture Secretary Brannan, who heads the U. S. representatives, told International News Service that the administration interprets the election results as a "mandate" to re-draft the wheat pact.

### Agreement Dies

An agreement worked out earlier this year died last summer in a senate foreign relations subcommittee of the Republican 80th congress.

But officials believe a renegotiated version would meet little opposition in the new Democratic 81st congress because of the party platform pledge for stable export markets for farm products.

In its simplest terms, the old wheat agreement would have provided the U. S. an export outlet for 185 million bushels of wheat a year for five years within a fixed range of prices.

### REPORTS DAUGHTER MISSING

City police were asked today to search for 13-year-old Donna Summer of 113 South Beaver street, missing since yesterday afternoon, according to her father. ### BED TIME

In a farming community, life is pretty much regulated by the sun.

Chickens go to roost when the sun goes down. They begin to stir when he peeks over the horizon.

On the farm, night is for rest and sleep. Daytime is for work.

In our machine age, sleep customs are changed somewhat.

Work must go on for the full 24 hours. Some people sleep by day and some sleep by night.

Sleep is necessary and important. Perhaps eight hours is a pretty good average for most people. Old people seem to get some benefit from frequent short naps.

Young people are likely to cut the sleep time a little. They do not like early bed time.

It does not seem to make much difference about bed time. It is the sleeping time which counts most.

## Trade Practices By Car Dealers Will Be Probed

WASHINGTON, Nov. 15.—(INS)—A congressional hearing will turn the spotlight today on unfair trade practices by car dealers which cost American motorists nearly a half-billion dollars in the first seven months of this year.

A House subcommittee headed by Rep. Mac N. N. Y., summoned officials of two Washington automobile agencies to initiate the public probe. The House group was created by special resolution to investigate "questionable trade practices."

The congressional investigators are expected to show that during the first seven months of 1948, American automobile buyers lost more than 200 million dollars on "undervalued trade-ins" and another 250 million on "extras" they did not want.

A committee source also said that evidence will be developed as the hearings go on showing that "under the table" payments have been made to unscrupulous dealers in addition to the regulation list prices for new cars.

**Strike Impairs  
Much Shipping****Longshoremen's Strike  
Threatens To Spread To Gulf Ports Of Nation**

NEW YORK, Nov. 15.—(INS)—The strike of AFL Longshoremen along the Atlantic Seaboard threatened to spread to gulf ports today, blocking nearly every major port in the nation and impairing shipment of Marshall Plan aid to Europe.

Pacific Coast Longshoremen, members of the CIO, have been on strike for more than two months.

Labor leaders said that Stevedores in Philadelphia had flatly refused an army request to load shipments of food and mail to the armed forces overseas. Shipments scheduled under the Marshall Plan were similarly affected, it was reported.

Meanwhile, New York's Mayor William O'Dwyer cut his California vacation short and flew into New York to consult with labor leaders and federal mediators in an effort to open the port of New York.

**Prietary Interest**

O'Dwyer asserted that the federal government has "priority interest at this time." His comment came after conferring with Cyrus Ching, director of the federal mediation and conciliation service.

Ching said that his department was "doing everything to settle the East Coast strike as well as the walkout involving 30,000 CIO Longshoremen on the West Coast."

Capt. William Bradley, leader of the tugmen in the ILA, said his members would continue to dock ships, but would not help them to leave their piers.

Possibility of some drastic move by President Truman to end the strike was seen in a statement made by Ching in Washington after his phone talk with the mayor, Ching said:

"When you get to a place where the national health and safety are at stake, someone has to bring order out of chaos."

**Plan Detour On  
Enon Valley Road**

Announcement was made this morning by Alfred Martin, Lawrence County Highway superintendent, that a detour would be established later this week on the Enon Valley-Mt. Jackson road due to work that is being done on the bridge one mile north of Enon Valley.

Motorists desiring to get to Enon Valley will use Route 18 to Route 265 in the vicinity of Moravia traveling to New Gallie whence over rural route 37005 to Enon Valley. The detour will add several miles to the route to Enon Valley. The detour will be in effect for several weeks.

Contractors have already started on the job of repairing the bridge over the Little Beaver river which had sunk several inches due to high waters in past years. The surface of the structure had dropped several inches presenting a rough pavement on which to travel.

# New Castle Assured Strong Mid-Atlantic League Team In 1949

## 'We Want Winner', Cannavino Says

Spring Training In South Planned; Rigid Rules To Be Laid Down; Whole New Team In Making; "Going After Pennant" Cannavino Contends.

"New Castle will be back in the Mid-Atlantic baseball league next summer with a strong team, and on a sound basis," was the way Michael "Mike" Cannavino, general manager, told the league officials and owners at a meeting held in Butler Sunday.

The announcement by Cannavino puts at rest any idea of New Castle dropping out of the league, a rumor that has been going the rounds here.

### Seven Teams Set

Every team in the 1948 league with the exception of Butler assured the league officials Elmer Daily, president and Russell Hockenberry secretary and treasurer, that they would be in the 1949 setup. Butler will know definitely in a few days and chances are the Yanks will be back.

It was the 25th annual Mid-Atlantic league meeting yesterday, this year being the Silver anniversary of the Class C loop.

### Believe In New Castle

Quoting Cannavino yesterday— "I believe in the great industrial future of New Castle, and honestly believe that we will get solid support from the good fans, providing we give them a winning team. From my observations New Castle is a good baseball town."

Cannavino yesterday completed purchase of a new player-manager for the 1949 team, the deal only needing a few minor details ironed out before an announcement can be made.

The Washington Senators are anxious for a team with New Castle next summer, it was revealed in a letter from Oscar Blaue, to Cannavino.

"We are definitely going after the 1949 pennant," Cannavino beamed. "We will not tolerate any misfits on the 1949 team, every man will have to hustle, and give his best or get fired."

### Offers Suggestions

Cannavino offered the league two good suggestions yesterday at Butler—to do away with the Shaughnessy playoff and have a split season and also to stage an annual All-Star game. Both suggestions were tabled for further study and a committee was appointed to look into the All-Star game possibilities—George Cooper of Johnstown, chairman, Harry Isbell of Uniontown, Gordon Hutchinson of Butler and "Jock" Munch of Erie.

It was revealed that two towns are anxious to obtain league franchises—Weirton, West Virginia and Charleroi, but there are no openings at present.

The league has sold Umpire Napp to the International league it was revealed.

Cannavino was accompanied to Butler yesterday by William F. De-

## Titans Drop Tough Final, 7-0

### Shankle's TD Winning Margin

Fumbles Hurt Westminster In Grove City Battle Saturday On Muddy Field

(Special To The News)

NEW WILMINGTON, Nov. 15.—An alert Grove City College team rushed over a touchdown against Westminster in the first three minutes of their game, here, Saturday, and the score, with the extra point, was enough to give the Crimson a 7-0 win over their traditional rivals.

The season opened at 7 a.m.

A surprisingly large crowd of about 3,000 sat through miserable weather conditions to watch the district rivals. The field was covered with a coating of soft mud which caused the offenses of both clubs to misfire.

Westminster got a taste of the line-bucking power of Jack Shankle, in the first few minutes of play. Westminster received the kickoff with the wind in their faces. One first down was reeled off and then Wharton quick kicked to Grove City's 37.

A Titan was detected clipping and the 15 yard penalty placed the leather on Westminster's 47. A line play failed, and then Reid faded back and passed down the left side-line to Hamilton who went to the 10 before he was hauled down.

Shankle Tallyles

Place lost four yards but Hummel went to the nine. Shankle hit to the four. With goal to go, Shankle ploughed over his left guard to just nip, the goal line. Dickson drop-kicked the extra point.

Westminster was in trouble most of the first half due to the fact that Quarterback Barthelson decided to throw caution to the wind in a desperate effort to score. Passing from his own 20 after Grove City had scored, Dickson intercepted on the Titan 31.

The Blue and White then gave an example of the fine defensive play which has marked their work all season. They held for downs on the 26.

Fumble Hurts

With only seconds to play before halftime, Barthelson hurled a long pass to Wharton who was in the clear on the Grove City 20 but to the usually sure-handed fullback fumbled the leather. There was time for another play.

What many fans thought was a bad-break for the Titans occurred early in the third quarter. From midfield, Barthelson passed to his left. Two Grover players hit the ball but Evanoff, Westminster end, seemingly caught the ball on the 20 before it touched the ground. The officials conferred and finally decided the pass had been grounded.

Grove City's nearest threat in the third quarter carried to the Titan 3 where the Blue took over on downs. Late in the fourth, the Grovers had a chance when McRae recovered a Titan fumble on the latter's 30. Two plays later, Stevens recovered a Grover fumble on his own 30.

Beynon Gets Hot

Westminster started to roll in the last two minutes with Bob Beynon, New Castle boy, carrying the mail, but a pass interception by Grover's Paul Black on the Grover 35 took the steam out of the drive.

The contest was a two-man duel in ball carrying between Shankle of Grove City and Wharton of Westminster. The former cracked Westminster's line while Wharton skirted Grove City's end consistently.

First downs were even with eight apiece. Westminster fumbled three times with Grove City recovering once. The Grovers also fumbled three times with Westminster making one recovery. The Titans tried 18 passes and completed eight with three intercepted. Grove City took to the air 11 times and completed six. One was intercep-

tions by Barthelson.

MARBLE BUSTS  
ROME, (INS)—Twenty intact  
marble busts of Roman Emperors  
have been discovered in the out-  
skirts of Rome in the course of  
excavations on the Cassian road.  
The extremely interesting archeo-  
logical find also include a large  
"calidarium" (room for hot baths)

and a very fine marble mosaic,  
both probably belonging to a pal-  
atial third century villa.

The peanut is not a nut. It is a  
member of the same family as the  
common bean and pea. It derived  
its name "nut" because of its  
flavor, which is similar to that of  
some of the true nuts.
